

Improving Performance in the Marine Contracting Industry

The International Marine Contractors Association (IMCA) is a leading trade association representing the vast majority of marine contractors and the associated supply chain in the offshore construction industry worldwide.

Our vision is to be the global authority in the marine contracting industry by championing improvements in industry performance and delivering authoritative technical practices

Who We Are

Our mission is to improve performance in the marine contracting industry.

We publish industry leading standards of technical and operating guidance in key areas of safety, quality, and offshore performance.

We represent our Members in dialogue with other industry bodies, regulators, oil companies and renewable energy companies.

IMCA & Its Work

We are an international trade association. Our Members operate in the offshore construction industry around the world.

We exist for the benefit of our Members by promoting areas of common interest, such as health, safety, quality, environmental and technical standards.

How We Operate

We operate through a committee structure which addresses many different areas of technical expertise.

Membership on our committees is by election or nomination, and we have over thirty committees and workgroups in place all working towards improving specialist aspects of performance of our industry.

Benefits of Membership

- A forum for meeting with likeminded companies and industry professionals to discuss matters of common interest.
- A level playing field of technical standards for all Members, ensuring that contractors and their clients are aligned.
- Unlimited access to our comprehensive online library, based on our Members' cumulative global experience, including regular updates, and with opportunities for contributing to the drafting and development process.
- Immediate access to all safety statistics, and our industry-wide Safety Flash alert system.
- A 'single voice' for lobbying on regulatory matters, with clients, governments and other organisations.
- Up-to-date certification in the key supervisory roles of Diving and Dynamic Positioning.
- IMCA's approved certification schemes are highly sought after within our industry.
- Seminars and workshops on a wide range of specialist industry topics.

Each Member joins one or more of our technical divisions (Diving, Marine, Offshore Survey, Remote Systems & ROV) according to its own area(s) of operation.

In addition to the global work of IMCA's technical committees, each Member joins one of five regions: Asia-Pacific, Europe & Africa, Middle East & India, North America, South America.

A leading voice for the offshore marine contracting industry

Members are encouraged to participate in our regional meetings and events to network and engage in our wide range of activities.
