

Criteria and Judging Panel

IMCA Annual Awards 2020

There were three categories for submissions:

- **Environmental Sustainability Award**
- **Safety Award**
- **COVID-19 Pandemic Initiatives**

Judging Panel

A panel of judges was convened comprising:

- IMCA Board Members
- Chair and Vice Chairs of appropriate committees
- Relevant members of IMCA's Secretariat

Entrants provided

1. An abstract of up to 150 words
2. A more detailed explanation explaining the initiative and showing results
3. Photographs, graphs and data demonstrating the impact of initiative
4. Entries submitted in previous years were permitted providing further developments and benefits of the programme could be demonstrated.

Criteria for the Environmental Sustainability Award

The judging criteria will include matters such as: the scale of environmental benefit; innovation; commitment of the workforce; social and economic benefits; quantification of the improvements; and the possibilities for future development.

Criteria for the Safety Award

The judging criteria will include matters such as: the visibility and promotion of safety with the workforce; successful adoption and buy-in by the workforce; improvement in safety behaviours; improved safety performance; and the possibilities for future development.

Criteria for the COVID-19 Pandemic Initiatives

The criteria relating to entries in the **COVID-19 Pandemic initiatives** category should include a demonstrable benefit through the development of a new, or adaptation of an existing product or system, in support of medical treatment or medical services; protective equipment, adapting existing or developing new methodology, ways of working or systems in light of the pandemic.
