

# IMCA Lifting & Rigging Technical Forum

Lifting Technology and Lifting in Offshore Renewables

**Thursday 27th October, 2022**

Novotel Hotel, Schiphol Airport  
Amsterdam, The Netherlands

This one-day seminar provides an opportunity for IMCA members to participate in an industry forum considering technical aspects of crane operations in an offshore environment. The subject of this seminar is to be focussed on Crane Technology – with the specific focus on offshore lifting and lifting offshore Renewables. Understanding the current and future technology needs. The forum should provide a strong view of the current technology from a number of different aspects and take a look at the future in the same regard.

Attendees will have the opportunity to participate in Q&A sessions and workshops.

## WHO ATTENDS

Representatives attend from a variety of subsea contractors, offshore crane designers/manufacturers, equipment suppliers and academic institutions.

## OUTCOMES

The aims of the event are multiple, ranging from communication of the latest codes, products and developments to helping identify common issues and development needs between offshore contractors. This can be fed into future development strategies and code/guideline improvements. This is an ideal opportunity to further discussions in the industry.

## PRICING

IMCA Members: £100

Non-Members: £200

## REGISTRATION

To help us plan for the event, please register your interest to attend as soon as possible:

Email: [events@imca-int.com](mailto:events@imca-int.com)

This seminar has been devised in conjunction with

**08:30:** Registration, tea & coffee

## Session 1: Background and Lesson Learned

**09:00:** Welcome to the IMCA Technical Forum

- IMCA updates and lessons learned

## Session 2: Offshore Contractors experience [1]

**10:00:** Experience and lessons being learned, technology challenges and needs, future requirements

**10:45:** Coffee break

## Session 3: Offshore Contractors experience [2]

**11:00:** Experience and lessons being learned, technology challenges and needs, future requirements

**12:00:** Panel Q&A – The Contractors

**12:15:** Workshop

- Technology Needs

**13:00:** Lunch

## Session 4: Supplier Sessions

**14:00:** Proven, newly developed and future technology to support offshore lifting

**15:20:** coffee break

**15:40:** Panel Q&A – The technology suppliers

## Session 5: Accademic Developments

**15:55:** Current and future challenges being addressed

**16:35:** Workshop

- Lessons from the day and actions for the industry

**16:55:** Closing statements

**17:00:** Close
