

North America Regional Meeting

When: Thursday November 2, 2023 (11:30 - 17:15)

Where: Houston Marriot Energy Corridor

Join us as we explore alternative contracting models for the North American offshore energy market.

Our **hybrid regional meeting** in Houston, TX will be a great opportunity to meet **IMCA CEO, Iain Grainger** on his first North American Regional meeting.

We have composed an event panel of current and former industry leaders from both the oil and gas and offshore wind sectors who will discuss and debate lessons learned from decades of experience.

The panel includes:

- **Jonathan Lints**, Director, **Clarksons Offshore Wind**
- **Mark Montgomery**, Manager Transportation & Installation Group, **ExxonMobil**
- **Alex Guimaraes**, Manager Logistics OSW, **Equinor**
- **Don Vardeman**, Former VP Global Projects **Anadarko**
- **Iain Grainger**, CEO, **IMCA**

For guests unable to attend in person, the live discussion will be available online via our online platform, ensuring that anyone with an interest in offshore energy working in North America can participate in this vital debate.
